- Taralay Indiana Pemba

**AREA**  
1500 sqm

ILSC Greystone College is a premier institution in Australia that provides language and vocational training for international students. In October 2023, the college expanded its presence by launching a new campus in Perth, WA. The new facility was designed to foster a warm, comfortable and stimulating learning atmosphere that aligns with the college's vision of diversity, excellence and innovation.

Flooring for the new campus was supplied by Gerflor in LVT and vinyl rolls. The common areas, such as the kitchenette, recreation areas and meeting rooms, feature Creation Premium luxury vinyl planks in Blackbutt design. The corridors, reception and main hall feature Taralay Impression vinyl rolls in Cemento Brescia.

A distinctive feature of the flooring design is the use of wayfinding elements to guide the students and enhance their experience at the school. Gerflor's bright Taralay Indiana colours are used to create these visual cues.
